***Life On Meltdown* by M J John (Facebook profile name: John Muthukat) exposes the lies of the establishment and is a wake-up call to the tyranny that's enveloping mankind.**

Most of us are disconnected from reality due to our living by totally depending on our brain/intelligence. This book will take you to a journey from your brain to your heart which will reconnect you to reality

LIFE ON MELTDOWN!

Exposing the root of this genocidal **COLLECTIVE STUPIDITY**

M. J. JOHN

The Colonialists and their offshoots — the Globalists — have created this world as an ‘ideal’ society to everlastingly continue their rule and to further their interests. Through clever use of modern reductionist science and market, for example, in high-tech communication media, genetic engineering, brainwashing and recreational sex and drugs, they are making most members of this ‘ideal’ society – no matter we call them “we the people” – as happy consumers.

This book is covering almost all the present social issues. And it is an attempt to break free from this ‘concentration camp’ called the TECHNOSPHERE or the ‘Second Nature’. This book also presents a futuristic dystopia of an unusual kind.

This book is an ideal reference book with proven futuristic visions, providing clear insight into most major future developments. The following events are testimonies to the prophetic accuracy of this book, Life On Meltdown, published in March 2014:

- Predicted Narendra Modi becoming not only the Indian Prime Minister but also a ‘powerful’ global leader months before the Indian Parliament election in May 2014, when Modi was only the CM of a state, Gujarat.
